

Mercury Systems Delivers 1,000th Apache Ethernet Routing Device to Boeing

February 9, 2021

ANDOVER, Mass., Feb. 09, 2021 (GLOBE NEWSWIRE) -- Mercury Systems Inc. (NASDAQ: MRCY, www.mrcy.com), a leader in trusted, secure mission-critical technologies for aerospace and defense, has achieved a significant milestone with the delivery of the 1,000th ethernet routing device (ERD) to Boeing. The ERD is a rugged line-replaceable unit (LRU) designed for aviation applications where extreme temperature, shock and vibration are prevalent. It provides key networking capabilities to the AH-64E Apache helicopter.

The high quality and reliable performance of the ERDs help support Boeing's Apache aircraft, sustaining this successful long-term program. This latest milestone continues Mercury's more than 35 years of serving the major defense prime contractor outsourcing needs by developing trusted and secure, lower-cost, flexible and easily upgradeable systems and platforms.

"We're proud of our work with Boeing and honored to be part of the Apache program," said Dr. Amela Wilson, Mercury's senior vice president and general manager, Mission. "Our dedicated workforce, coupled with our close supplier relationship with Boeing, has been the catalyst for success on this project. We look forward to continuing our support of the defense avionics industry by delivering leading-edge technologies that are secure, reliable and purpose-built to perform with absolute precision in extreme environments, under the most intense conditions."

Operating at the intersection of high-tech and defense, Mercury Systems is the leader in making trusted, secure mission-critical technologies profoundly more accessible. Our work is inspired by our Purpose of delivering Innovation That Matters, By and For People Who Matter, to make the world a safer, more secure place for all. Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the products and services described herein and to fiscal 2021 business performance and beyond and the Company's plans for growth and improvement in profitability and cash flow. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of epidemics and pandemics such as COVID, effects of any U.S. federal government shutdown or extended continuing resolution, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, increases in interest rates, changes to industrial security and cyber-security regulations and requirements, changes in tax rates or tax regulations, changes to interest rate swaps or other cash flow hedging arrangements, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended July 3, 2020. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
