

## Mercury Selected by NAVAIR To Continue To Provide Advanced Data Transfer Systems for Navy Aircraft

Oct 21, 2024 at 7:00 AM EDT

ANDOVER, Mass., Oct. 21, 2024 (GLOBE NEWSWIRE) -- Mercury Systems, Inc. (NASDAQ: MRCY, [www.mrcy.com](http://www.mrcy.com)), a technology company that delivers mission-critical processing power to the edge, today announced it was awarded a five-year contract worth as much as \$131.3 million from the U.S. Naval Air Systems Command (NAVAIR) to continue providing secure data transfer systems for naval aircraft.

Mercury has been delivering [Advanced Data Transfer Systems](#) (ADTS) and components to the Navy since 2017 to support numerous rotary-wing and fixed-wing aircraft. These rugged, flexible, and proven systems simplify the secure transfer of data between planners on the ground and aircraft, significantly improving operational readiness of these airborne assets. The new indefinite delivery/indefinite quantity contract will allow Mercury to deliver upgraded power-thrifty ADTS units that incorporate the company's [JDAR](#) encryption module.

"Mercury has a strong partnership with the Navy, providing a range of data storage and transfer, video recorders, mission computers, and cockpit displays for the aircraft fleet," said Roya Montakhab, Mercury's SVP of Integrated Processing Solutions. "We are exceptionally proud to continue delivering ADTS systems that ensure critical government data is protected."

Mercury's ADTS features:

- Up to 3 TB (3 x 1 TB) solid state memory modules (each module available from 128 GB, 256 GB, or 1 TB) with up to 450/300 MB/s read/write transfer rates
- Optional crash survivable memory module: Up to 30 GB of storage
- 1 SATA port: optional for crash survivable flight data recorder
- Up to 250ms of response time
- MIL-STD-1553B, four 1,000 BASE-TX Gigabit ethernet, analog/digital video/audio, and discrete interfaces
- External command over external communications circuit
- Manual zeroize capabilities: via front panel switch
- Meets information assurance requirements (S&U)

### Mercury Systems – Innovation that matters®

Mercury Systems is a technology company that delivers mission-critical processing power to the edge, making advanced technologies profoundly more accessible for today's most challenging aerospace and defense missions. The Mercury Processing Platform allows customers to tap into innovative capabilities from silicon to system scale, turning data into decisions on timelines that matter. Mercury's products and solutions are deployed in more than 300 programs and across 35 countries, enabling a broad range of applications in mission computing, sensor processing, command and control, and communications. Mercury is headquartered in Andover, Massachusetts, and has 23 locations worldwide. To learn more, visit [mrcy.com](http://mrcy.com). (Nasdaq: MRCY)

### Forward-Looking Safe Harbor Statement

This press release contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to the Company's focus on enhanced execution of the Company's strategic plan. You can identify these statements by the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of any U.S. federal government shutdown or extended continuing resolution, effects of geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in or cost increases related to completing development, engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. government's interpretation of, federal export control or procurement rules and regulations, changes in, or in the interpretation or enforcement of, environmental rules and regulations, market acceptance of the Company's products, shortages in or delays in receiving components, supply chain delays or volatility for critical components, production delays or unanticipated expenses including due to quality issues or manufacturing execution issues, capacity underutilization, increases in scrap or inventory write-offs, failure to achieve or maintain manufacturing quality certifications, such as AS9100, the impact of supply chain disruption, inflation and labor shortages, among other things, on program execution and the resulting effect on customer satisfaction, inability to fully realize the expected benefits from acquisitions, restructurings, and operational efficiency initiatives or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, effects of shareholder activism, increases in interest rates, changes to industrial security and cyber-security regulations and requirements and impacts from any cyber or insider threat events, changes in tax rates or tax regulations, changes to interest rate swaps or other cash flow hedging arrangements, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, litigation, including the dispute arising with the former CEO over his resignation, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 28, 2024 and subsequent Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.
