

Making the latest commercial processing technologies profoundly more accessible to aerospace and defense

THE MERCURY PROCESSING PLATFORM

Powering the most demanding aerospace and defense missions

Mercury Systems is a technology company dedicated to making the world a safer, more secure place. We deliver the latest commercial processing technologies built to perform in the most challenging aerospace and defense missions with absolute precision. From silicon to system scale, Mercury enables customers—defense prime contractors, government agencies, and commercial companies—to accelerate innovation and turn data into decision superiority.

PROVEN TECHNOLOGIES ACROSS LAND, SEA, AIR, AND SPACE

Mercury solutions are embedded in more than 300 commercial and defense programs in aerospace, defense, and critical infrastructure, delivering unprecedented situational awareness for decision superiority.

DELIVERING THE LATEST COMMERCIAL PROCESSING TECHNOLOGIES

Mercury collaborates with key Silicon Valley partners to design processing solutions able to perform under the most intense conditions and in the most remote, environmentally extreme locations on earth and in space.

Why Mercury

MISSION READY

Fit for purpose to meet the demanding requirements of our customers' missions

SOFTWARE DEFINED

Software-enabled hardware for future proofing, rapid scaling, ease of maintenance, and affordability

TRUSTED AND SECURE

Trusted supply chain, manufactured on shore, with security and safety built in

OPEN AND MODULAR

Plug and play, upgradeable, and scalable

MERCURY SYSTEMS BY THE NUMBERS

~2,400

Number of team members globally, many hold DoD security clearances

6

Cogswell Awards from the U.S. Defense Counterintelligence Agency

\$974M

FY23 Revenue

24

Global state-of-the-art manufacturing facilities

300+

Platforms deployed across land, sea, air, and space

4,000

Systems deployed in 35 countries outside the U.S.

40+

Years of tech leadership in the A&D industry

25+

Prime customers: including virtually all leaders in the A&D industry

75%

Of primes consider Mercury their top processing technology provider
