Mercury Computer Systems to Present at the Needham & Company 13th Annual Growth Conference on January 11, 2011

CHELMSFORD, Mass., Dec 20, 2010 (BUSINESS WIRE) --

Mercury Computer Systems, Inc. (NASDAQ: MRCY), a trusted ISR subsystems provider, announced that it will present at the Needham & Company 13th Annual Growth Conference to be held on January 11-13, 2011, at The New York Palace Hotel in New York City. On Tuesday, January 11, at 10:00 am EST, management will present an overview of the Company's business.

An audio webcast and archive of the event will be available beginning on Tuesday, January 11th, simultaneous with the Company's presentation, through the Company's website at www.mc.com/investor under "Financial Events." A replay of the webcast will be archived for one month on the Company's website under "Financial Events."

Mercury Computer Systems, Inc. - Where Challenges Drive Innovation®

Mercury Computer Systems (www.mc.com, NASDAQ: MRCY) is a best of breed provider of open, application-ready, multi-INT subsystems for the ISR market. With 25+ years' experience in embedded computing, superior domain expertise in radar, EW, EO/IR, C4I, and sonar applications, and more than 300 successful program deployments including Aegis, Global Hawk, and Predator, Mercury's Services and Systems Integration team leads the industry in partnering with customers to design and integrate system-level solutions that minimize program risk, maximize application portability, and accelerate customers' time to market.

Mercury is based in Chelmsford, Massachusetts, and serves customers worldwide through a broad network of direct sales offices, subsidiaries, and distributors.
