Forward-looking safe harbor statement

This presentation contains certain forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995, including those relating to fiscal 2020 business performance and beyond and the Company's plans for growth and improvement in profitability and cash flow. You can identify these statements by the use of the words "may," "will," "could," "should," "would," "plans," "expects," "anticipates," "continue," "estimate," "project," "intend," "likely," "forecast," "probable," "potential," and similar expressions. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, continued funding of defense programs, the timing and amounts of such funding, general economic and business conditions, including unforeseen weakness in the Company's markets, effects of epidemics and pandemics such as COVID, effects of any U.S. Federal government shutdown or extended continuing resolution, effects of continued geopolitical unrest and regional conflicts, competition, changes in technology and methods of marketing, delays in completing engineering and manufacturing programs, changes in customer order patterns, changes in product mix, continued success in technological advances and delivering technological innovations, changes in, or in the U.S. Government's interpretation of, federal export control or procurement rules and regulations, market acceptance of the Company's products, shortages in components, production delays or unanticipated expenses due to performance quality issues with outsourced components, inability to fully realize the expected benefits from acquisitions and restructurings, or delays in realizing such benefits, challenges in integrating acquired businesses and achieving anticipated synergies, increases in interest rates, changes to industrial security and cybersecurity regulations and requirements, changes in tax rates or tax regulations, changes to interest rate swaps or other cash flow hedging arrangements, changes to generally accepted accounting principles, difficulties in retaining key employees and customers, unanticipated costs under fixed-price service and system integration engagements, and various other factors beyond our control. These risks and uncertainties also include such additional risk factors as are discussed in the Company's filings with the U.S. Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2019, and as updated by the Company's Current Report on Form 8-K filed on April 28, 2020. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.

Use of Non-GAAP (Generally Accepted Accounting Principles) Financial Measures

In addition to reporting financial results in accordance with generally accepted accounting principles, or GAAP, the Company provides adjusted EBITDA, adjusted income, adjusted EPS, free cash flow, organic revenue and acquired revenue which are non-GAAP financial measures. Adjusted EBITDA, adjusted income, and adjusted EPS exclude certain non-cash and other specified charges. The Company believes these non-GAAP financial measures are useful to help investors better understand its past financial performance and prospects for the future. However, these non-GAAP measures should not be considered in isolation or as a substitute for financial information provided in accordance with GAAP. Management believes these non-GAAP measures assist in providing a more complete understanding of the Company's underlying operational results and trends, and management uses these measures along with the corresponding GAAP financial measures to manage the Company's business, to evaluate its performance compared to prior periods and the marketplace, and to establish operational goals. A reconciliation of GAAP to non-GAAP financial results discussed in this presentation is contained in the Appendix hereto.

Pioneering a next-generation defense electronics company...

- Unique business model at the intersection of high-tech and Defense
- Make commercial technology profoundly more accessible
- Provide all trusted and secure computers for A&D
- Deployed on 300+ programs - serving defense Prime contractor outsourcing needs
- FY14 - FY19 CAGR:
 - 26% Revenue; ~10% Organic
 - 34% GAAP Net Income*
 - 46% Adj. EBITDA
 - 29% Backlog
- Defense industry's highest Glassdoor employee ratings**

Investment highlights

Spent \$1.3B since fiscal 2014 creating a unique business and model for A&D industry

- Innovative growth company at the intersection of high-tech and defense
 - Focused on large, growing and well-funded addressable markets
- Proven transformational business model for A&D industry
 - R&D levels 4-5x industry average as percent of revenue
 - Reusable, trusted and secure mission-critical technologies for speed, reduced risk and affordability
 - Industry-leading secure computing subsystems developed by a highly cleared workforce
 - Developed and produced in trusted facilities with a trusted supply chain
 - Destination employer and acquirer of choice
- Low-risk content expansion strategies delivering above-average organic revenue CAGR
 - Upward vertical expansion for outsourced Tier 2 subsystems driving large dollar content increases
 - Horizontal adjacent market expansion into other platforms and programs with similar needs
 - Unique chip-scale innovation driving future highest-margin content expansion
- Successful M&A strategy targeting new capabilities and market expansion
 - In-house deal origination, M&A execution and acquisition integration
 - Full integration drives substantial cost and revenue synergies over time
 - Multiple M&A themes ongoing
 - Scalable business platform

Six major trends shaping the defense industry

Political Dysfunction:

2019 Budget Control Act positive. Repeated Continuing Resolutions disrupting DoD budget process and spending. 2020 election. Pentagon attrition

Increased Defense Spending Cycle:

Rising interest rates, healthcare and social spending remain long-term issues; Significant platform electronics modernization underway

Defense Procurement Reform:

DoD focused on speeding up rate of innovation and fielding
Other Transaction Authority (OTA) and Non-Traditional Defense Contractors (NTDCs)

Innovation Challenges:

Primes increasing headcount but recruitment challenges and aging workforce;
Relatively low IRAD requires focused investment and increased outsourcing

DoD needs more domestically-produced technology

Leverage high-tech commercial investment and innovation;
Address supply chain globalization and need for trust, security and assurance

Challenging Global Security Environment:

Chinese militarization and power projection, resurgent Russia and
Middle East instability

Our COVID-19 response

- Created COVID-19 response team with four key goals to guide decision-making
 1. Protect the health, safety and livelihoods of employees
 2. Reduce and mitigate operational and financial risks in business
 3. Continue to deliver on commitments to customers and shareholders
 4. Continue mission-critical work to support ongoing security of U.S.
- DHS classification as critical infrastructure enabling U.S. facilities to operate
- All employees who can work from home are doing so
- Adjusted workplace conditions to improve physical distancing and safety

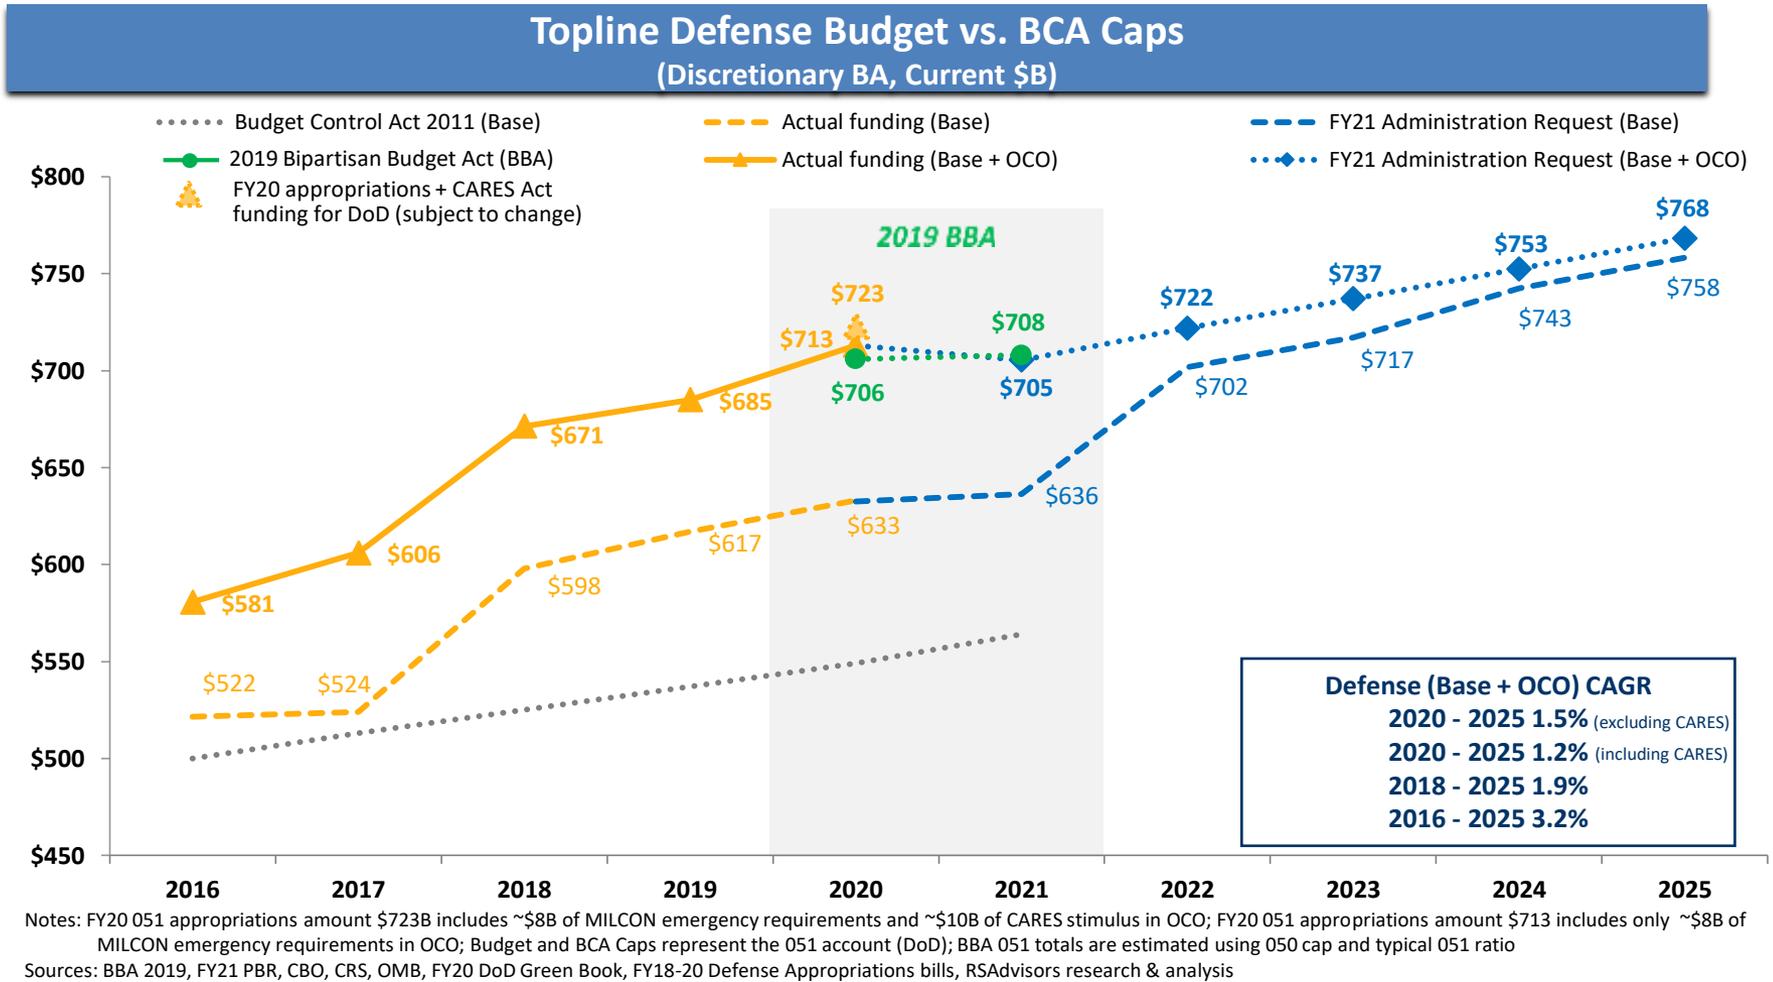

Business conditions remain robust

- COVID-19 not expected to have near-term impact on defense spending
- Brief delays in order approval and flow; no fundamental demand change
- Benefiting from significant wave of sensor and C4I modernization
- Healthy demand in weapons, space, avionics, mission computing
- Favorable trends – delayering, flight to quality, outsourcing
- Investments in people, processes, technologies, manufacturing paying off
- Closely monitoring supply chain to mitigate risk, minimize impact
- Significant efforts to increase physical distancing inside facilities

(3) Effective as of the third quarter of fiscal 2020, the Company has revised its definition of adjusted income and adjusted earnings per share to incorporate other non-operating adjustments, which includes gains or losses on foreign currency remeasurement, investments and fixed asset sales or disposals among other adjustments. Adjusted EPS for prior periods has been recast for comparative purposes.

(4) Effective as of the third quarter of fiscal 2020, the Company has added back incremental COVID related expenses.

(5) Impact to income taxes is calculated by recasting income before income taxes to include the add-backs involved in determining adjusted income and recalculating the income tax provision using this adjusted income from operations before income taxes. The recalculation also adjusts for any discrete tax expense or benefit related to the add-backs.

(6) Effective as of July 1, 2019, the Company's fiscal year has changed to the 52-week or 53-week period ending on the Friday closest to the last day in June.
