Mercury Computer Systems to Present at the Morgan Keegan Security & Defense Conference

CHELMSFORD, Mass., Jul 25, 2011 (BUSINESS WIRE) --

Mercury Computer Systems Inc., (NASDAQ: MRCY, www.mc.com), a trusted provider of commercially developed ISR subsystems, announced that it will participate in the Morgan Keegan Security & Defense Conference to be held on August 9, 2011, at the New York Palace Hotel in New York, New York. Management will present an overview of the Company's business on Tuesday, August 9, at 8:05 am EDT.

The presentation will be simultaneously webcast and posted on the company's website at mc.com/investor under "Financial Events". A replay of the webcast will be archived for three months on the Company's website under "Financial Events."

Mercury Computer Systems, Inc. - Where Challenges Drive Innovation[®]

Mercury Computer Systems (www.mc.com, NASDAQ: MRCY) is a best of breed provider of open, commercially developed, application-ready, multi-INT subsystems for the ISR market. With over 30 years of experience in embedded computing, superior domain expertise in radar, EW, EO/IR, C4I, and sonar applications, and more than 300 successful program deployments including Aegis, Global Hawk, and Predator, Mercury's Services and Systems Integration team leads the industry in partnering with customers to design and integrate system-level solutions that minimize program risk, maximize application portability, and accelerate customers' time to market.

Mercury is based in Chelmsford, Massachusetts, and serves customers worldwide through a broad network of direct sales offices, subsidiaries, and distributors.
